

Zin Min Htet

WEB DEVELOPER

A highly motivated entry-level full-stack web developer with experience in both Node.js and React. Strong understanding of web development principles and a passion for creating dynamic, user-friendly websites. Proven ability to work collaboratively in a team environment and ability to quickly learn new technologies. Seeking an opportunity to apply my skills and knowledge to contribute to the success of a dynamic organization. *Highly motivated in software engineering and application development.*
